Use the map below to determine the next steps in your school’s mitigation process, with an emphasis on Recess, Extracurriculars, Adherence and Lunch (REAL). The ABC Science Collaborative is available to help you navigate these strategies and answer your questions.

**Do you submit data to the ABC Science Collaborative?**

- **NO**
  > Submit infection data to the ABC Science Collaborative and email to discuss monitoring, infection rates, and answers to your questions.

**Do you require universal masking indoors?**

- **NO**
  > Require universal masking indoors: The target is greater than 90% adherence.

**Are you following the ABC Science Collaborative protocol for lunch?**

- **NO**
  > Institute the ABC Science Collaborative lunch protocol: The best practice is to eat OUTSIDE, distanced greater than 3 feet; limit time with masks off. If eating inside, aim for 6 feet of distance.

**Are the within-school infections related to extracurriculars?**

- **YES**
  > 1. Vaccinate in order to participate.
  > 2. Vaccinate or twice-weekly testing.
  > 3. Pause extracurricular activities.

**Is masking enforced outside, e.g., recess?**

- **NO**
  > Evaluate distancing and consider masking at all times on school property.

**Do you have a masking monitoring plan?**

- **NO**
  > Institute a school-based monitoring plan: Record masking adherence for 10% of each building each day. Email for more information.

**Do you have a COVID-19 testing program designed with ABC Science Collaborative input?**

- **NO**
  > Email for more information on testing programs.
